

# “Neighbors Helping Neighbors”

The NDWCA is working to help landowners develop a noxious weed control plan for their property that is effective and safe for the environment, animals, and people.

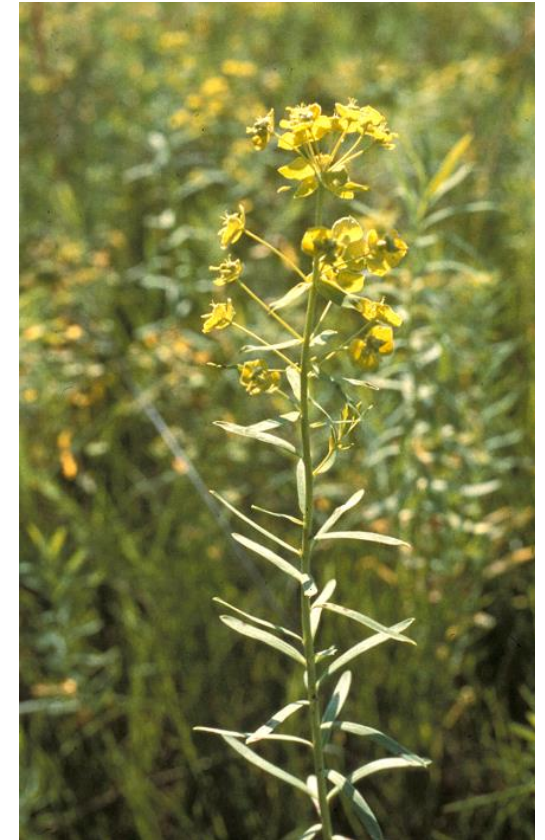

## What is a Noxious Weed?

A noxious weed is a plant that’s considered to be injurious to the environment, animals, crops, and people. Noxious weeds are subject to government regulations for control and management.

NDWCA

Elgin, ND 58533-9226

*Only through working together can we eliminate the threat of noxious weeds.*

*From Dr. Rod Lym, NDSU Plant Sciences Dept.*

## Our Story

The NDWCA's goal is to help provide the education, tools, and policies to further the control and management of noxious weeds by County and City Weed Boards, private landowners, and managers of state and federal lands.

The NDWCA was organized in 1983 with a mission to provide the vision and leadership necessary to increase a commitment to effective weed management in ND.

Our membership includes County and City Weed Boards, educators, researchers, and land managers from state and national agencies such as APHIS, US Fish & Wildlife, US Forest Service, US Army Corp of Engineers, ND Game & Fish Department, and ND Parks and Recreation Department. Members also include industries, individuals, and others who are committed to preserving our natural resources from invasive species.

## Objectives

- 1. LEADERSHIP**  
To provide leadership for weed management in North Dakota.
- 2. AWARENESS**  
To encourage and sponsor education and awareness programs in weed management.
- 3. LIAISON**  
To provide communication among city and county weed boards, weed control offices, groups, organization, agencies, companies, and individuals concerned with weed management programs.
- 4. ASSIST**  
To assist the North Dakota Department of Agriculture in the development of effective and efficient weed management programs for North Dakota.
- 5. LEGISLATION**  
To develop and promote appropriate legislation pertaining to weed management.
- 6. RESEARCH**  
To encourage and support research on weed problems and their solutions.

"Noxious weeds cause millions of dollars in damage to North Dakota crops and forage. Many additional dollars are spent in both public and private efforts to control these weeds. In addition to their agronomic impact, noxious weeds adversely affect rural and urban landscapes, tax revenues, recreational opportunities and wildlife habitat." - Doug Goehring, Agriculture Commissioner

## Join NDWCA Today

*Full Membership*.....\$275

This allows you to vote and hold office.

*Associate Membership*.....\$175

May serve on committees.

Both memberships allow you to attend the area meetings and the annual convention. You'll also receive quarterly newsletters.
